PROFESSIONAL EXPERIENCE

Uzabase Inc. (June 2025 to date)

Junior Analyst – Global Startup

- As part of the Global Startup Team within the UB Global DataTech Division, I contribute towards the acquisition, maintenance, and validation of data for the Global Startup Database, ensuring the accuracy and completeness of startup funding and company-related information.
- I actively leverage AI tools and techniques to optimize data collection and workflow efficiency, refining my prompt engineering skills to extract structured and uniform data from diverse sources.
- My role also involves performing back-testing tasks to verify data consistency and enhance database reliability, while contributing to the continual improvement of data quality and process automation across the team.
- I am also involved in Python-based workflow automation projects (using VS Code) and pilot initiatives related to data warehouses, involving API testing, App Scripts, and SQL-driven process improvements.

(November 2024 - June 2025)

Intern Analyst – Emerging Technology Research

- Monitored and reported on key developments in emerging niche industries, specifically within the Aerospace/Defense and Sustainability sectors, for the SPEEDA Edge platform.
- Tracked industry trends and company positioning, incorporating relevant insights to ensure actionable updates for clients.
- Conducted research to create and maintain company profiles and perform competitive analysis for start-ups and established firms in assigned industries.
- Performed ad-hoc updates on incumbent profiles, industry overviews, and company teardowns to reflect the most recent developments.

Intern – SPEEDA Data Assurance and Stats (May 2024 - November 2024)

- Executed data acquisition tasks by sourcing and verifying business intelligence data from verified sources and data suppliers, ensuring accurate updates on the platform.
- Performed tasks in a project to standardize and maintain the uniformity of data entries from various sources, enhancing accessibility and consistency for clients utilizing the SPEEDA platform.
- Conducted data validation and mapping tasks.

Event Specialist - RMG LIVE

(June 2025 to date)

- Supported operations and logistics for large-scale concerts including මතකයෙන් 2024, Saturday Night Live 2024, and the Bryan Adams Tribute Show 2025.
- Coordinated behind-the-scenes tasks with production teams to ensure smooth execution of sold-out shows.
- Gained experience in live event planning, artist coordination, and milestone productions at leading venues.
