PROFESSIONAL SUMMARY

Data and research professional with over two years of experience across the full research and data lifecycle, from sourcing and validation through to processing, analysis, and reporting. I work as a Data Analyst at Uzabase Inc. while studying for a BSc in Financial Engineering at the University of Colombo and the CIMA qualification, giving me a solid grounding in business, economics, and analytics. My background spans emerging-technology research, data assurance, and startup analytics, and I enjoy turning data into insights that support clear decisions. Keen to apply my quantitative and data-processing skills to brand and intangible-asset research.

CORE SKILLS

Research & Analysis: Full research lifecycle from design to delivery, competitive analysis, company profiling, industry and market research, back-testing, quantitative and statistical analysis, trend and anomaly identification.

Data & Technical: Python (Pandas, Polars, NumPy, DuckDB), SQL, relational databases (PostgreSQL, MySQL), database governance and data-quality frameworks, Microsoft Excel (pivot tables, formula-based analysis), Google Sheets and App Script, data cleaning, coding and validation, deduplication, web scraping (Playwright), API integration, Git/GitHub, VS Code.

Data Visualisation & BI: Tableau, Zoho Analytics, Metabase, and custom dashboards built with Dash and Plotly for real-time reporting.

Tools & AI: LLM-assisted data workflows, prompt engineering, and automation bots.

Professional: Stakeholder communication, process documentation, working to tight deadlines, self-starter within small teams, financial planning and costing.

PROFESSIONAL EXPERIENCE

UZABASE SRI LANKA, Full-time, 2 years & 1 month

Analyst – Global Data Automations

Jan 2026 – Present

- Design and run automated Python workflows that ingest, process, and deliver large-scale global firmographic, financial, and management datasets for institutional datafeed clients, using reusable workflow design with a focus on data quality.
- Build data pipelines with DuckDB and Pandas/Polars to deduplicate records (weighted-similarity and rule-based logic) and run accuracy checks across millions of records.
- Develop automated validation frameworks and technical documentation for quarterly delta analysis, identifying added, removed, and modified records to keep datafeeds reliable over time.
- Use LLMs and custom automation bots to extract, normalise, and standardise entity-level datasets across multiple Asian markets, working with API integration, web scraping, and cloud-hosted environments.
- Run pilot evaluations of data-warehouse and RDBMS solutions and structured reviews of global data suppliers to assess completeness, accuracy, and suitability for high-volume use.

Junior Analyst – Global Startup

Jun 2025 – Dec 2025

- Acquired, maintained, and validated data for the Global Startup Database, checking the accuracy and completeness of startup funding and company information.
- Carried out back-testing to verify data consistency and improve database reliability, and worked on data-quality and process-automation improvements with the team.
- Built and maintained ad-hoc data pipelines for varied datasets using Python and SQL, and used prompt engineering to extract structured, uniform data from different sources.

Intern Analyst – Emerging Technology Research (SPEEDA Edge)

Nov 2024 – Jun 2025

- Researched and built company profiles and competitive analyses of start-ups and established firms across the Aerospace/Defense and Sustainability sectors.
- Tracked industry trends and company positioning and wrote timely news coverage and insights for the SPEEDA Edge client platform.
- Produced ad-hoc updates for incumbent profiles, industry-overview reports, use-case maps, and company teardowns to keep client-facing insight current.

Intern – Data Assurance & Statistics (SPEEDA)

May 2024 – Oct 2024

- Sourced and verified business-intelligence data from approved suppliers to keep platform updates accurate and on time.
- Standardised data entries from multiple sources to improve consistency and accessibility for platform clients.
- Carried out preliminary data validation and mapping and helped maintain the statistics database.

CRESCO SL, Part-time, 1 year & 5 months

Director & Co-Founder

Jan 2025 – Present

- Co-founded a data analytics venture providing end-to-end solutions for local SMEs and startups, building internal control systems and data pipelines tailored to each client.
- Build pipelines that feed into dashboard analytics, often updating in real time depending on the client, to support day-to-day decision-making.
- Develop AI chatbots trained on internal business-intelligence data, letting clients query their own KPIs and metrics in plain language.
- Work directly with business owners to scope requirements, set up reporting, and hand over systems they can run themselves.

RMG LIVE, Part-time

Event Specialist

Feb 2024 – Present

- Support operations and logistics for large-scale, sold-out concerts (Saturday Night Live 2024, Bryan Adams Tribute Show 2025), coordinating behind-the-scenes work with production teams.

EDUCATION & QUALIFICATIONS

University of Colombo, Faculty of Science

Oct 2025 – Dec 2028

- BSc in Financial Engineering (Undergraduate).

Chartered Institute of Management Accountants (CIMA)

Apr 2024 – Present

- Advanced Diploma in Management Accounting (Adv. Dip. MA); results pending for the Strategic Case Study. Foundation in business, economics, analytics, and finance.

St. Peter's College, Colombo 04

2009 – 2024

- **G. C. E. A/L 2024:** Economics (A), Accounting (A), Business Studies (B).

LEADERSHIP & EXTRA-CURRICULAR

Interact District Council, Rotary International District 3220 (Sri Lanka & Maldives), 2022/23

- District Finance Director: managed budgeting, costing, and financial oversight across district projects and events.
- Chairman of the 33rd Interact District Assembly: led planning and delivery of the flagship event, with 1,200+ participants at Temple Trees and the Prime Minister of Sri Lanka as Chief Guest.
- Project Treasurer on several district flagship projects, including IBTS 2023 and GreenCon 2023.

Interact Club of St. Peter's College

- Club President (2021/22) and Finance Director (2020/21), overseeing 100+ project committees during tenure.
- Led the club to the Platinum Standard Club award, a Rotary International Citation, and recognition as a runner-up for Most Outstanding Club and Most Outstanding President in District 3220.

Prefects' Body of St. Peter's College (2021–2024)

- Senior Prefect & College Coloursman; House Captain of Arthur House; Finance-in-Charge and Stewards-in-Charge (2022/23); Duty-in-Charge of the 2023 Big Match.
- Duty-in-Charge of "Peterites Share the Joy of the Centenary" with Sirasa Gammadda, raising LKR 4.9 million to provide clean drinking water for 550+ families in Mahakarambawa, Puttalam.

Other roles: Treasurer & Vice President, English Literary & Drama Society; Quizmaster, Do-You-Know Club; Secretary, Muslim Majlis; Member, Colombo Independent Debating Society.

Sports: Karate Black belt Dan (Kyokushinkaikan Karate Federation); Placed 2nd at the Western Province Chess Competition (Under-12 and Under-15).
